Last year, Dawn Brunke came to our tribal Ya Ne Dah Ah School to talk about animal communication. As part of her talk, she guided the children through a journey to experience what it

was like to be the little fish that was swimming around a bowl in the classroom. I followed along, wondering if the exercise would work for me. Closing my eyes and connecting with the fish, I began to feel what it was like to float and swim through the water with little fins attached to my body. For a few minutes, I actually experienced what it was like to 'be' a fish - and so did the students. This amazingly wonderful book is easy to read and appropriate for young and old alike. Like Dawn's first book (Animal Voices), Awakening gave me a greater appreciation for animals by reading their voices as they share their observations and wisdom. Dawn also relates how she learned more about animals by connecting with them in different ways - through animal communication, dreams, healing experiences, power and totem animals, and more. For example, she writes about observing an eagle, and suddenly seeing through the eagle's eyes. Her book explains how anyone can do this. In addition to a very appealing graphic design with lots of great quotes, animal motifs and photos, and boxes containing animal messages and stories, Awakening to Animal Voices has many other voices too. It includes advice from professional animal communicators as well as animals...from horses, cats and llamas to donkeys, turtles and even some Iditarod sled dogs. More than that, it has exercises, games, meditations and projects aimed at helping readers to connect more deeply with animals (and themselves) by drawing on their own unique strengths and abilities. I only wish there would have been something like this for me when I was a teenager. It will put young readers at a great advantage that many of us older spiritual-seeking bookworms didn't have.

Dawn's first book, Animal Voices: Telepathic Communication In the Web of Life, was an eye-opener for animal lovers. Dawn has once again written an excellent book, this one applicable for people of all ages, not just teens. She provides many exercises and thought provoking concepts throughout the book which leave the reader with no doubt that they too can telepathically communicate with animals. Of all the animal communication books out there, I believe this is the best one for awakening your inherent abilities to communicate, no matter your age. I highly, highly recommend this book.(...)

AWAKENING TO ANIMAL VOICES is a book for open-minded readers of all ages who are willing to believe it could be possible to communicate with animals, and are ready to find out how to go about it. Author Dawn Brunke shares animal communication stories, exercises, and quotations in an easy-flowing format that makes the material accessible, informative, and fun. I especially love the way that deep animal wisdom is shared from a wide variety of animals including cats, dogs, lions, bumblebees, flies, llamas, ravens, finches, sharks, whales, elephants, cows, buffalo, frogs, donkeys,

and hamsters. Photographs of many of the animals add an extra dimension to this lovely book. Once you start talking with animals, you'll gain confidence in what you're hearing in response... and **AWAKENING TO ANIMAL VOICES** helps tremendously by presenting lots of examples of animal conversations as well as tips and pointers for getting the dialogue going. I've been having conversations with animals for years, and recommend **AWAKENING TO ANIMAL VOICES** as the perfect guidebook for starting a fabulous conversation with all the animals in your life!-- Cynthia Sue Larson author of "AURA ADVANTAGE: How the Colors in Your Aura Can Help You Attain What You Desire and Attract Success"

Animals are a huge part of the everyday life of many people the world over, as they share a special bond with their owners. That's where **AWAKENING TO ANIMAL VOICES** comes in. It teaches people whether they are young or old, how to communicate with their beloved animals telepathically, through various games, exercises, stories, and experiments. Readers will learn to listen more closely to the whispers of life, while at the same time learning the spiritual tools of dream work, shape shifting, animal guides, and more. Dawn Bauman Brunke has created an in-depth, wonderful guide that will touch the hearts of all animal lovers, and have them communicating with their pets in no time. A wonderful new book, that should occupy a space on the bookshelves of all pet owners. Erika Sorocco Book Review Columnist for The Community Bugle Newspaper
