Kaplan PSAT/NMSQT 2014 Strategies, Practice, And Review: Book + Online

Synopsis

The most complete test preparation guideâdelivering exclusive practice and online content guaranteed to raise scores on the PSAT/NMSQT from the leader in test prep for 75 years! Scores on the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) are used to determine eligibility for National Merit Scholarships and also provide an indicator of likely SAT scoring. The PSAT/NMSQT consists of three parts: two 25-minute critical reading sections; two 25-minute math sections; and a 30-minute writing skills section. Kaplan PSAT/NMSQT 2014 Strategies, Practice, and Review is the only test preparation guide that prepares students to score higher on all three sections of the test. It is also the only guide to provide the level of key information, exclusive strategies, and targeted practice necessary for students to learn the material and prepare them for the SAT. Not only is Kaplan PSAT/NMSQT 2014 Strategies, Practice, and Review comprehensive and complete, but it also offers an exceptional online component, setting it apart from the competition. Kaplan PSAT/NMSQT 2014 Strategies, Practice, and Review contains many essential and unique features to help students improve their test scores, including: Three full-length practice tests, plus one diagnostic 75+ realistic practice questions with detailed explanations Comprehensive review for every section Tips and strategies for scoring higher from Kaplanâs PSAT/NMSQT experts Kaplan PSAT/NMSQT 2014 Strategies, Practice, and Review provides students with everything they need to improve their scoresâguaranteed. Kaplanâs Higher Score guarantee provides security that no other test preparation guide on the market can match. Kaplan has helped more than three million students to prepare for standardized tests. We know that our test-taking techniques and strategies work and our materials are completely up-to-date. Kaplan PSAT/NMSQT 2014 Strategies, Practice, and Review is the must-have preparation tool for every student looking to score higher!

Customer Reviews

The book was marketed as having online access but it is not an easy task to access. My daughter called the customer service only to be told she had to be signed up for classes before she could have online access.

I just took the PSAT this morning after using this book and some other supplementary materials to study. Compared to the real test, the practice tests in here are much easier. For study tips, this book will give examples of commonly asked question types and how to approach them - which is really at the core of what you need to know. I think this book is good in that respect - a decent reference tool, but it does not have accurate practice tests to help you predict your score. Overall: Would recommend if you're just looking at the "tips" section, but other than that I would shop around. **I did not use the online access nor do I know if it works. Edit: Yep - there was about a 30 point difference between my real score and my practice scores. I would suggest a different book. Lowering my review.

I bought this book for my daughter. She is excited about having the study guide and practice. The book is large so a little intimidating at first glance. Actually very well put together and well broken down with explanations of why it's important to practice and how the test is graded. All sections have instructions for the work to be done as well. Great study guide and testing tool!! Would recommend.

Practice tests are too easy and not comparable to the real PSAT. Don't purchase Kaplan PSAT. Princeton Review and Barrons are much better.

It is useful for me to review my knowledge and not so expensive. The paper is not so good, but for me it is enough to carry all the value content. In my opinion, the value of book includes both content and physical paper or design cover.

Amazingly, they "update" the book every year (mainly so they can increase price) - and there are still typos. In older editions, the answer key gave the correct answer on page 46, question 27. During the update - they changed the answer to a WRONG answer - but did not change the explanation. The vocabulary section is great. Great source of words for flashcards. It could use another 50 to 100 analogies for students to practice.

While the book is ok and the questions do help with the preparation, the answers for the tests are right behind each test. This makes the book useless for any real testing. It is very easy for the student to get tempted and check for the answers when they encounter a difficult problem. Also, the answers cannot even be removed easily since they are right next to or behind a test page. I wish Kaplan fixes this asap.

This book is helping me study for my PSAT this year. This book is really helpful, and has helped me to understand what I need to study for the most.
