ISO 2768-2:1989, General Tolerances - Part 2: Geometrical Tolerances For Features Without Individual Tolerance Indications

Synopsis

This part is intended to simplify drawing indications and specifies general tolerances in three tolerance classes. It mainly applies to features which are produced by removal of material. It contains four tables and an informative annex A with regard to concepts behind general tolerancing of dimensions, as well as an informative annex B with further information. This title may contain less than 24 pages of technical content.
