Peterson Field Guide Coloring Books: Shells (Peterson Field Guide Color-In Books)

Synopsis

Color your own field guide and make nature come alive. Coloring your own field guide, from the peachy white of a Knobbed Whelk to the pinkish purple of a Tulip Mussel, is the most enjoyable way to learn about shells. Each drawing is accompanied by a brief description that educates as it entertains. Place the new color stickers next to the drawings for a visual reference while you work. Coloring the drawings helps reinforce the image, shape, and colors of each shell, improving your memory and perception while offering a pleasant and easy way to learn. Fun for adults as well as children, beginning and experienced naturalists alike.

Age Range: 8 and up

Grade Level: 3 - 7

Customer Reviews

This coloring book met my expectations and more because in addition to shell pictures to color and stickers to aid in color matching, there is much, much information about the shells included and shells in general. I am very pleased with my purchase and recommend it to those who like a hands-on approach to shells.

This is a wonderful memory tool. I can color with a sticker sample. The pictures are a good size and the print is readable.

Took along to the beach and enjoyed using for identification as well as coloring with grands.

Wonderful. Enjoyed learning from this and so did my kids. :)

My granddaughter loved this colouring book.
